

CLAY ROOF TILES

LADRILLERA SANTAFÉ

Ladrillera Santafé is a Colombian company with over 60 years of history in the construction materials' industry. We are the largest manufacturers of clay bricks and clay roof tiles in Colombia and one of the top five companies in the region.

We are the leaders in exporting clay roof tiles and our brand **Santafé®** is well known at an international level by architects, builders, installers, and homeowners. Our clay roof tiles are installed in various regions of the world, including North America, Central America, the Caribbean islands, South America, and Africa.

We have strong presence in the U.S. market, especially in Florida and other Sun Belt states, including Hawaii, where we have proudly installed more than 90 million roofing tiles over the past 25 years. Our brand Santafé – The Masters in Clay – is recognized by roofing contractors and installers as the No. 1 Clay Roof tile in the market.

Our portfolio is composed of innovative and high quality clay roof tiles that can be easily adjusted to the architectonic trends and the specific technical requirements of the markets in which we participate in.

Apart of clay roof tiles, we also successfully export from Colombia pavers and façade clay products that enrich and increase the esthetic beauty and value of the international projects that are constructed with our products. At Ladrillera Santafé we identify ourselves as leaders, pioneers, experts, and as trustworthy individuals.

SANTAFÉ TILE CORPORATION

**#1 CLAY TILE IMPORTER
IN THE U.S.***

Santafé Tile Corporation, a subsidiary company of Ladrillera Santafé, was established in Miami, Florida with its main objective of being closer to its clients. This allowed the company to understand at first hand the customer's needs and requirements, which created a high quality and effective customer service experience. Consequently, Santafé was able to provide its roofing tile products to clients within the US through our national distribution channels

OUR EVOLUTION AND MILESTONES

1990

In 1990 Ladrillera Santafé seized a business opportunity in the roof tile industry, which allowed us to export our products to the United States, Central America, and the Caribbean. For this reason, as Ladrillera Santafé, we took the initiative of creating the international branch: "Santafé The Masters in Clay."

By strongly believing in its abilities to react and adapt to the markets requirements, Ladrillera Santafé invested in an automatic and efficient roof tile production plant that would use the highest quality Colombian clay as its raw material.

1993

Santafé Tile Corporation, a subsidiary company of Ladrillera Santafé, was established in Miami, Florida with its main objective of being closer to its clients. This allowed the company to understand at first hand the customer needs

and requirements, which created a high quality and effective customer service experience. Consequently, Santafé was able to provide its roofing tile products to clients within the US through our national distribution channels.

TODAY

At Santafé The Masters in Clay we prioritize our client's satisfaction by constantly developing our innovative, trend setting, and high quality products. We accomplish this permanent development by offering our clay roof tiles in a variety of forms and colors, which allow us to engage in roofing projects, both for new construction or remodeling. Thanks to all

these achievements we are the leaders in the roof tile industry in the United States, Central America, and the Caribbean. Our products have even reached Chile, Hawaii, and Africa, which proves that Santafé The Masters in Clay has no geographical limits at an international level. Santafé The Masters in Clay is innovation, quality, service, support, and guarantee.

BENEFITS OF CLAY

COLOR

Clay roof tiles maintain their color over time. Santafé colors are achieved through a ceramic process that guarantees the color application will not fade over time.

WATER ABSORPTION

Santafé clay roof tiles have low water absorption, meaning that it does not require for much maintenance (especially in humid weather areas).

MAINTENANCE

Clay roof tiles can last decades without any need for cleaning. If cleaning is indeed needed, the colors will NOT FADE away. Santafé tiles are known for being able to maintain their color and vibrancy over time.

STRENGTH

Contrary to popular belief, clay roof tiles can be stronger than concrete tiles. Santafé clay roof tiles have higher transverse strength than concrete tiles, ranging from 750-1100 lbs (depending on the profile). And yes, you can even walk on the roof tiles!*

DURABILITY

Thanks to the benefits of clay and its manufacturing process, costumers can trust on acquiring a product that, if properly installed, can last a lifetime. This is achieved by using the adequate products for a high quality roofing system.

WEIGHT

Roof tile weight is extremely important, especially when your objective is to replace a pre-existing roof. Santafé Spanish S clay roof tiles are considered light-weighted, having an average weight of 662 lbs/sq.

©Santafé clay roof tiles may present some slight variations in color due to the inherent natural properties of clay products. For this reason, minor differences in colors between products may arise. Printing limitations and screen variations may change the actual color of our roof tiles. Therefore, we recommend the interest parties to request a full sample before ordering.

BÁLTICA COLLECTION

Báltica Tile Coffee Fumé and Coffee

Inspired by the beauty of the slate and wood shakes, this profile emulates a perfectly balanced design between the traditional, the modern and the natural. Choose a single color, create a unique combination of colors or add texture with the “fume” options, in order for your design to be in harmony with the personality of the project. This style comes in different hues, from natural-earthly tones, to exclusive blues and greens.

Thanks to its inter-locking system, this profile allows an easy installation and an exclusive finish. Due to the nature of the manufacturing process, **this model is not completely flat.**

ARTISAN BLEND HANDMADE MISSION BARREL TILES

Artisan Blend

This is the most rustic and authentic clay roof tile that one can acquire. Each piece is manufactured by Colombian artisan hands through the traditional Colombian process, creating a variation of natural colors, which are unique to each tile. The high quality standard of this product is recognized at an international level. Due to this natural handmade process, we can guarantee a wide range of tone variations, making each piece differentiate from one another. Santafé recommends customers to request samples as reference.

SPECIFICATIONS

Height: 3.0" Pieces/Sq: 180
Weight: 6.8 lb Pieces/Pallet: 560

The Artisan Handmade Mission Barrel Tile comes in a mixed variety of colors, which are achieved through its natural process and inherent natural properties of the clay that is being used. This natural random color variation is what makes this tile so unique and beautiful. Not one tile is the same as another, since each individual piece has a particular hue.

PRE-BLENDS

SUSTAINABILITY, PART OF OUR COMPANY'S MISSION

For us, sustainability is a crucial and relevant value through which we hope to fulfill the following pillars.

01 QUALITY ASSURANCE

To guarantee a high quality product by closely monitoring each phase of the production process. From raw materials to final product.

02 ENVIRONMENTAL IMPACT

The continuous implementation of preventive actions that would mitigate and compensate for any environmental impact, generating a harmonic relationship with nature.

03 SOCIAL RESPONSIBILITY

By understanding the specific needs of the communities where Ladrillera Santafe has direct impact, our social responsibility team implements programs to improve the quality of life and wellness of our neighbors.

04 INNOVATION

Develop products and constructive solutions that satisfy the needs of the markets through the implementation of new technologies and the use of new raw materials.
